Summary

IT engineer student at Tecnológico de Monterrey (ITESM) with a concentration in Information Technology Management. I love software development and project administration. Currently, I am working as a React Freelance. I am a motivated person who enjoys learning, being proactive, and generating new solutions.

Experience

Freelance   *Estado de México, México*

JUNIOR FRONTEND DEVELOPER   *July 2021 - Present*

- Built static and dynamic web sites using React, NextJS, HTML5, CSS3, and Javascript.
- Deployed with Vercel.
- Experience with several tools and solutions such as Git and Jira.
- Basic Experience with REST APIs using Express, Node, and Passport.

Education

Instituto Tecnológico y de Estudios Superiores de Monterrey (ITESM)   *Estado de México, México*

B.S. IN INFORMATION TECHNOLOGY   *Ago. 2018 - Dec. 2022*

- Concentration in IT Management: Service Management (ITIL), Change Management (PROSCI), Governance, Risk and Compliance, Strategic administration of IT, and Project Management.
- Research project about audit process and IT strategy of L'Oréal México and Altatec de Occidente.

Lycée la Providence   *Montauban de Bretagne, France*

HIGH SCHOOL YEAR IN SCIENTIFIC AREA   *Aug. 2016 - June 2017*

- Exchange program that helped me to broaden my view of the world and better understand the culture and academic life in France.

Awards

Quantum Hack MX   *Ciudad de México, México*

THIRD PLACE ON "EL PUERTO DE LIVERPOOL'S" CHALLENGE   *April 2021*

My Team and I created a web application where customers could find all sales, just by using a QR code. It was built with React, Redux, JavaScript, and CSS.

Volunteering

Familias Unidas   *Estado de México, México*

VOLUNTEER   *February 2020 - June 2020*

I helped organize a conference in my community to raise awareness of the importance of water care during pandemic times. I also helped in the campaign to publicize this event.
